

VT403 Vocal Lavalier Microphone

Best sound on every stage.

The Voice Technologies VT403 is an ultra-miniature RF protected Hi-SPL microphone for use with a wireless body pack transmitter.

The microphone is fitted with a subminiature microphone capsule and has a high electromagnetic interference protection. It has an open and clear sound and is excellent for vocalists and stage presentations. The VT403 has a very low inherent noise and a low distortion for high sound pressure levels.

Colors: black or beige

Application area: Stage - Musical - Vocals

The Voice Technologies VT403 comes in the solid, waterproof VTO box with the following accessories:

	AC4	Alligator Clip: The holder has a 30 degree angle for better presence. Thanks to the 30 degrees the holder points slightly forward instead of up.
	DM4	Dracula Mount: The holder has a 30 degree angle for better presence. Thanks to the 30 degrees the holder points slightly forward instead of up.
	MMC4	Miniature Magnetic Clip: Can be fixed either on the clothes or worn around the neck with the included nylon yarn.
	RBM2	Rubber Body Mount: Perfect tool to mount the lavalier mic absolutely invisible. Put the mic into the hole at the side until the top is in the middle of the front hole.
	Wsi401/403	Miniature Windscreen: A nearly invisible windscreen. Prevents from distortion air while speaking.

Specifications	
Generating Element:	Electret Condenser
Polar Pattern:	Omni-Directional
Frequency Range:	100Hz- 20kHz
Sensitivity:	-48dB ±3dB 1V/microbar (5mV/Pa)
Noise level:	+33dB "A" weighted
Max. Input SPL:	136dB
Impedance:	2 kOhm
Bias/+VDC:	3V (1.5 to 9V max.)
Colors:	black or beige
Size:	10x3,2mm
Cable:	Length 1,5m Ø 1,0mm
Weight:	6 g

Wiring Configuration (2-wire):	
Green	Ground
Copper	NF
Red	+VDC
