Correct Mounting of the DH Distance Holder on the VT Duplex Cardioid Microphone

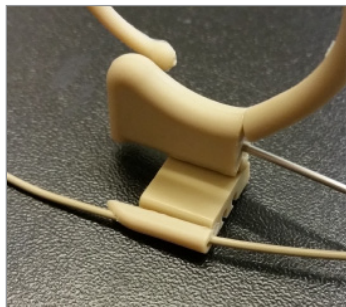

The DH distance holder prevents noise through contact and can be placed in three different positions (1, 2, 3):

First mount the holder on the microphone boom.

Then mount the holder on the earpart.

Voice Technologies has committed itself to the classic Swiss values: inventive ideas, precision, top-quality materials and modern fabrication techniques.

Our products are built to a standard of offering the best solutions for a wide range of applications. The microphone, headset and ear-phone products we manufacture are widely used all over the world. Our lavaliers are commonplace on major productions in the U.S. and other markets including motion picture, popular reality TV, major award shows and primetime talk shows.

Unique qualities are the trademark of every Voice Technologies solution. The highest standards of manufacturing and materials as well as strict quality controls are principle in the Swiss production of Voice Technologies products.

GUARANTEE

Our Voice Technologies products are covered by a two-year limited guarantee on mechanical functions as long as the items are not mis-treated or modified.

We certify that to our knowledge our products conform to the European Union's Restriction on Use of Hazardous Substances in Electrical and Electronic Equipment (RoHS) Directive 2002/95/EC.
