

Swiss precision for excellent audio quality

VOICE TECHNOLOGIES

VT60M MINIATURE EARPHONE

Excellent sound, almost invisible.

The Voice Technologies VT60M is a very small and extremely lightweight earphone that's totally unobtrusive!

It delivers quality sound as well as isolation from outside noise and is the ideal solution for stage presentations, theatre and broadcast studio operations.

The built-in receiver is connected with a thin cable that can be difficult to see in most applications.

Colors: beige

Application area: Stage - Theatre - Broadcast

The VT60M comes in the stable, waterproof VTO box with a clip and an additional earpiece.
